Professional Summary:

Motivated and detail-oriented Java developer with 2 years of experience developing backend services using Java, Spring Boot, and SQL, alongside frontend work with Flutter. Skilled in building scalable APIs and applying clean architecture principles. Enthusiastic about best development practices, CI/CD workflows, and working in agile, collaborative teams. Eager to contribute to innovative projects while growing into a Java specialist and fullstack developer.

Professional Experience**Fullstack Developer**

DIXI PONTO, Curitiba, Paraná, Brasil

2022- Present

- Developing a mobile and web application for time control and human resources management using Java Spring Boot (backend) and Flutter (frontend)
- Responsible for fullstack implementation, including REST API design, database integration (SQL), and UI development
- Collaborating with the team to ensure application performance, clean architecture, and scalability
- Introduced CI/CD practices into the workflow to streamline testing and deployment
- Gained practical experience in API integration, software architecture, and system performance optimization
